Food, Science, Policy and Regulation in the Twentieth Century: International and Comparative Perspectives (Routledge Studies in the Social History of Medicine)

Food, Science, Policy and Regulation in the Twentieth Century: International and Comparative Perspectives (Routledge Studies in the Social History of Medicine)

This highly topical book offers a comprehensive study of the interaction of food, politics and science over the last hundred years. A range of important case studies, from pasteurisation in Britain to the E coli outbreak offers new material for those interested in science policy and the role of expertise in modern political culture.
