The focus of Volume 2 is on Solar Energy & the Economy. It includes documented contributions of solar to job creation and economic development with projections for the year ahead. Compares solar industry with other energy industries using specific data for each. Includes other timely information important for states, communities and the nation, and to the well-being of individual consumers.

Part of an Energy Experts Interview Series with national and state experts on key energy topics - Solar energy, other renewable energy, energy efficiency, alternative transportation fuels and more. Addressing energy and job creation, sustainable communities, environmental health, economic development and much more.

Presented by the Future Is Now Foundation, a charitable nonprofit organization that provides educational programs on energy and other topics at the state and national levels, since 2002.

In March 2016 the Foundation sponsored a two day national Energy Solutions Conference featuring 23 national and state experts. Held via Simulcast, the theme was Renewable Energy & Alternative Fuels. On-demand replays of all presenters, including the interview guest for this book, are available at EnergySolutionsNow.com. The next conference track will be on Energy Efficiency topics.

Proceeds from the E-Book series go to the Future Is Now Foundation.
