Structure and Function

Peter Comba (Ed.)

Structure and Function Peter Comba (Ed.)

The art of chemistry is to thoroughly understand the properties of molecular compounds and materials and to be able to prepare novel compounds with predicted and desirable properties. The basis for progress is to fully appreciate and fundamentally understand the intimate relation between structure and function. The thermodynamic properties (stability, selectivity, redox potential), reactivities (bond breaking and formation, catalysis, electron transfer) and electronic properties (spectroscopy, magnetism) depend on the structure of a compound. Nevertheless, the discovery of novel molecular compounds and materials with exciting properties is often and to a large extent based on serendipity. For compounds with novel and exciting properties, a thorough analysis of experimental data – state-of-the-art spectroscopy, magnetism, thermodynamic properties and/or detailed mechanistic information – combined with sophisticated electronic structure calculations is performed to interpret the results and fully understand the structure, properties and their interrelation. From these analyses, new models and theories may emerge, and this has led to the development of efficient models for the design and interpretation of new materials and important new experiments. The chapters in this book therefore describe various fundamental aspects of structures, dynamics and physics of molecules and materials. The approaches, data and models discussed include new theoretical developments, computational studies and experimental work from molecular chemistry to biology and materials science.

From reader reviews:

Leticia Hodges:

Information is provisions for folks to get better life, information presently can get by anyone from everywhere. The information can be a understanding or any news even a problem. What people must be consider while those information which is inside the former life are challenging to be find than now is taking seriously which one would work to believe or which one the particular resource are convinced. If you receive the unstable resource then you buy it as your main information it will have huge disadvantage for you. All those possibilities will not happen with you if you take Structure and Function as the daily resource information.

Edward Christensen:

Spent a free time and energy to be fun activity to do! A lot of people spent their down time with their family, or all their friends. Usually they performing activity like watching television, planning to beach, or picnic inside the park. They actually doing same thing every week. Do you feel it? Do you want to something different to fill your own free time/ holiday? Could be reading a book could be option to fill your free time/ holiday. The first thing you ask may be what kinds of reserve that you should read. If you want to try look for book, may be the guide untitled Structure and Function can be very good book to read. May be it may be best activity to you.

William Rocha:

Do you have something that you want such as book? The publication lovers usually prefer to pick book like comic, limited story and the biggest you are novel. Now, why not seeking Structure and Function that give your entertainment preference will be satisfied by reading this book. Reading routine all over the world can be said as the means for people to know world considerably better then how they react when it comes to the world. It can't be said constantly that reading addiction only for the geeky particular person but for all of you who wants to become success person. So , for all of you who want to start examining as your good habit, you are able to pick Structure and Function become your own personal starter.

Harvey Sanchez:

Reading a publication make you to get more knowledge from this. You can take knowledge and information originating from a book. Book is created or printed or created from each source this filled update of news. With this modern era like currently, many ways to get information are available for you actually. From media social such as newspaper, magazines, science book, encyclopedia, reference book, fresh and comic. You can add your understanding by that book. Are you ready to spend your spare time to spread out your book? Or just searching for the Structure and Function when you essential it?
