Critical Thinking in Health and Social Care Stella Jones-Devitt, Liz Smith

Critical Thinking in Health & Social Care is designed to equip practitioners with the knowledge and tools they need to critically examine practice in their own workplace. The book presents a range of different approaches, each of which is explained and grounded in practice using case studies, problem-solving scenarios and workplace examples. The practical tools which form the core of the book are contextualised by an exploration of what constitutes knowledge and evidence and the types of assumptions which are commonly held and which have a bearing on practice.
