Knowledge Horizons Charles Despres, Daniele Chauvel

Knowledge Horizons charts the feasible future for knowledge management. This practical and provocative resource presents the work of many of the leading voices in knowledge management and related disciplines, who explore the current trends and offer pragmatic and authoritative thinking on applied knowledge management from a variety of positions.

Knowledge management is the new frontier for businesses, organizations, and institutions of all kinds. For those that hope to conquer this new territory, establishing a better understanding of current and future knowledge management trends and adoption of the most effective practices is imperative. There are numerous options for executives: intranets, extranets, groupware, and core competencies are continually being refined. New entities and rules in terms of intellectual capital and the "Chief Knowledge Officer" are emerging. Knowledge Horizons addresses these issues by exploring current and future knowledge management trends, gauging the future value of knowledge management investments, and how they will drive new business initiatives, and integrates the experience and insights of managers and cutting-edge research from experts in the field.

From reader reviews:

Clarence Hamm:

What do you think about book? It is just for students since they're still students or that for all people in the world, exactly what the best subject for that? Just simply you can be answered for that concern above. Every person has several personality and hobby for each and every other. Don't to be obligated someone or something that they don't would like do that. You must know how great in addition to important the book Knowledge Horizons. All type of book is it possible to see on many resources. You can look for the internet sources or other social media.

Edna Kissel:

The book with title Knowledge Horizons includes a lot of information that you can learn it. You can get a lot of benefit after read this book. This kind of book exist new information the information that exist in this guide represented the condition of the world at this point. That is important to you to understand how the improvement of the world. This book will bring you with new era of the syndication. You can read the e-book on your smart phone, so you can read that anywhere you want.

Frederick Rothman:

Are you kind of occupied person, only have 10 or maybe 15 minute in your day time to upgrading your mind proficiency or thinking skill actually analytical thinking? Then you are experiencing problem with the book compared to can satisfy your small amount of time to read it because pretty much everything time you only find reserve that need more time to be learn. Knowledge Horizons can be your answer mainly because it can be read by an individual who have those short free time problems.

Katie Broadnax:

Do you like reading a publication? Confuse to looking for your preferred book? Or your book was rare? Why so many question for the book? But any kind of people feel that they enjoy to get reading. Some people likes reading, not only science book but in addition novel and Knowledge Horizons or even others sources were given information for you. After you know how the fantastic a book, you feel need to read more and more. Science publication was created for teacher or even students especially. Those ebooks are helping them to add their knowledge. In different case, beside science reserve, any other book likes Knowledge Horizons to make your spare time much more colorful. Many types of book like this one.
