The Munich Crisis, 1938: Prelude to World War II (Diplomacy & Statecraft)

Most of the works on the crises of the 1930s and especially the Munich Agreement in 1938 were written when it was virtually impossible to gain access to the relevant archive collections on both sides of the Iron Curtain. This text studies the Czechoslovak-German crisis and its impact from previously neglected perspectives and celebrates the post-Cold War openness by bringing in new evidence from hitherto inaccessible archives.
