**From Book 1:**

2457 AD. Premier Lang is a dictator ruling a solar system in crisis. The human race is still haunted by the Doom Star days, and millions dwell in slums below Earth's surface. The pristine star system of New Eden is a beacon of hope —*but it is 230 light years away*. Getting there will be a challenge unlike any ever attempted by mankind. Only with the help of "Specials," human telepaths who can create rips in space, will the ship stand a chance of traveling the vast distance.

But when one telepath makes a disastrous deal with an alien enemy, the entire mission takes a deadly turn. Can a fledgling Special with steely street smarts save humanity as the dwindling crew makes the final, frightening leap toward New Eden?

An inspired work of sci-fi adventure and combat, *Alien Honor* delivers a thrilling showdown between humans and a terrifying alien menace.
