## The Cassini Code: A Galahad Book Dom Testa

*When the tail of the comet Bhaktul flicks through the Earth's atmosphere, deadly particles are left in its wake, and mankind is confronted with a virus that devastates the adult population. A renowned scientist proposes a bold plan: to build a ship that will carry a crew of 251 teenagers to a home in a distant solar system. Two years later, Galahad and its crew is launched. If their mission fails, it will be the end of the human race...*

The teenage crew of *Galahad* has survived their first encounter with an alien race. Though shaken by the power of The Cassini, Triana and her Council are determined to continue their mission. But some of the crew don't agree. Led by the charismatic Merit Simms, a small group of crew members begins lobbying for a return to Earth—just as the ship enters the Kuiper Belt, the deadly minefield of asteroids that surrounds the solar system.

As *Galahad* dodges a storm of asteroids, Triana finds herself dealing with an increasingly hostile crew. Even some members of the Council are beginning to listen to Merit's arguments. Can Triana find a way to prevent a mutiny aboard *Galahad*, and lead her crew to safety?
