Children in Society: politics, policies and interventions

Children in Society: politics, policies and interventions

In the same tradition as the best-selling Making and Breaking Children's Lives (PCCS Books, 2005) this is a deeply searching and challenging collection of socio-cultural and critical explorations of the issues facing children, their families and children's services today. Sami Timimi, author and Consultant Child and Adolescent Psychiatrist, writes: 'I loved this book. I think it is virtually unique in the range of topics covered by the authors that relate to both the social construction of childhood and the real life experiences of children. I thoroughly recommend this to all professionals who work with children and young people.'
