In 1774 American independence was hardly inevitable—indeed, most Americans found it neither desirable nor likely. When delegates from the thirteen colonies gathered in September 1774, they were, in the words of John Adams, “a gathering of strangers.” With their differing interests and cultural perspectives, perhaps the only thing that bound them together was their common identity as subjects of the British Crown. But as they confronted the array of political, diplomatic, and military challenges facing them during the twenty-two months before the signing of the Declaration of Independence, they gradually shed both their provincial and their British identities and became leaders of an American cause. With narrative verve and deep historical understanding, Richard R. Beeman tells the remarkable story of how the delegates to the Continental Congress, through courage and compromise, came to dedicate their lives, their fortunes, and their sacred honor to the forging of American independence.
