Antibody Fc: Chapter 15. Fc Receptor-Dependent Immunity Joseph U. Igietseme, Xiaoping Zhu, Carolyn M. Black

Fc receptor (FcR)-dependent effector functions of antibodies contribute significantly to protective immunity against microbial pathogens and tumors. Therefore, FcR-mediated immunological processes constitute a key component of the immune system's defense armamentaria for maintaining the biological and physiological integrity of the mammalian host who is yoked with frequent encounters with infections and neoplasia. The direct effector functions that result from FcR triggering are phagocytosis, antibody-dependent cellular cytotoxicity, and induction of inflammation; also, FcR-mediated processes provide immunoregulation and immunomodulation that augment T-cell immunity and fine-tune immune responses against antigens. This plasticity of effector and immunoregulatory functions provides unique opportunities to apply FcR-based platforms and immunotherapeutic regimens for vaccine delivery and drug targeting against infectious and non-infectious diseases. This chapter focuses on the protective immunological processes resulting from antibody or immune complex binding to FcRs on effector cells (i.e., NK cells, macrophages, dendritic cells, PMNs, and eosinophils), as well as innovative strategies to apply these mechanisms in immunotherapy, vaccine, and drug delivery against infectious and non-infectious diseases. Deleterious immune reactivity associated with FcR engagement, including immune complex diseases, allergic reactions due to IgE-mediated activation of mast cells and basophils, or facilitation of microbial infectivity, such as antibody-mediated enhancement of infections, are outside the focus of this review.

From reader reviews:

Paula Jackson:

What do you concentrate on book? It is just for students since they are still students or the idea for all people in the world, exactly what the best subject for that? Merely you can be answered for that query above. Every person has several personality and hobby for every other. Don't to be pushed someone or something that they don't would like do that. You must know how great and also important the book Antibody Fc: Chapter 15. Fc Receptor-Dependent Immunity. All type of book would you see on many resources. You can look for the internet methods or other social media.

Kristen Hamilton:

Spent a free a chance to be fun activity to perform! A lot of people spent their sparetime with their family, or their friends. Usually they undertaking activity like watching television, likely to beach, or picnic inside park. They actually doing same thing every week. Do you feel it? Do you wish to something different to fill your free time/ holiday? Could be reading a book might be option to fill your cost-free time/ holiday. The first thing that you will ask may be what kinds of publication that you should read. If you want to try look for book, may be the e-book untitled Antibody Fc: Chapter 15. Fc Receptor-Dependent Immunity can be fine book to read. May be it can be best activity to you.

Melvin Robinson:

Antibody Fc: Chapter 15. Fc Receptor-Dependent Immunity can be one of your starter books that are good idea. Most of us recommend that straight away because this guide has good vocabulary that could increase your knowledge in vocabulary, easy to understand, bit entertaining but delivering the information. The copy writer giving his/her effort to set every word into delight arrangement in writing Antibody Fc: Chapter 15. Fc Receptor-Dependent Immunity yet doesn't forget the main position, giving the reader the hottest and based confirm resource info that maybe you can be one of it. This great information can drawn you into brand new stage of crucial contemplating.

Barbara Jackson:

A lot of guide has printed but it is different. You can get it by world wide web on social media. You can choose the very best book for you, science, witty, novel, or whatever by means of searching from it. It is known as of book Antibody Fc: Chapter 15. Fc Receptor-Dependent Immunity. You can add your knowledge by it. Without causing the printed book, it can add your knowledge and make a person happier to read. It is most important that, you must aware about publication. It can bring you from one destination for a other place.
