## **The Zend Avesta** James Darmesteter

THE present volume contains a translation of the Sîrôzahs and Yasts, and of the Nyâyis. This part of the Avesta treats chiefly of the mythical and legendary lore of Zoroastrianism. For a satisfactory translation of these texts, the etymological and comparative method is generally considered as the best or as the only possible one, on account of the entire absence of any traditional interpretation. I have tried, however, to reduce the sphere of etymological guesswork to its narrowest limits, with the help of different Pahlavi, Persian, and Sanskrit translations, which are as yet unpublished, and have been neglected by former translators. I found such translations for the Sîrôzahs, for Yasts I, VI, VII, XI, XXIII, XXIV, and for the Nyâyis<sup>1</sup> (besides the already published translations of Yasts XXI and XXII). Of the remaining Yasts, which are mostly of an epic character, there is no direct translation available; but a close comparison of the legends in Firdausi's Shah Nâmah seems to throw some light, even as regards philological points, on not a few obscure and important passages. This has enabled me, I believe, to restore a few myths to their original form, and to frame a more correct idea of others.
