**The time for financial technology innovation is now**

*Marketplace Lending, Financial Analysis, and the Future of Credit* clearly explains why financial credit institutions need to further innovate within the financial technology arena. Through this text, you access a framework for applying innovative strategies in credit services. Provided and supported by financial institutions and entrepreneurs, the information in this engaging book encompasses printed guidance and digital ancillaries.

Peer-to-peer lenders are steadily growing within the financial market. Integrating peer-to-peer lending into established credit institutions could strengthen the financial sector as a whole, and could lead to the incorporation of stronger risk and profitability management strategies.

- Explain (or Explore) approaches and challenges in financial analysis applied to credit risk and profitability
- Explore additional information provided via digital ancillaries, which will further support your understanding and application of key concepts
- Navigate the information organised into three subject areas: describing a new business model, knowledge integration, and proposing a new model for the Hybrid Financial Sector
- Understand how the rise of fintech fits into context within the current financial system
- Follow discussion of the current status quo and role of innovation in the financial industry, and consider the financial technology innovation landscape from the perspective of an entrepreneur

*Marketplace Lending, Financial Analysis, and the Future of Credit* is a critical text that bridges the gap in understanding between financial technology entrepreneurs and credit institutions.
