Esta investigación comenzó a gestarse durante los primeros años del presente siglo. No porque se tuviera claridad sobre sus bases teóricas y alcances, sino por el interés de responder a una serie de problemas que se relacionaban unos con otros y que estaban demandando respuestas urgentes, tanto desde el punto de vista teórico como práctico. En el 2004 comencé explorando la temática de la expansión industrial y la organización del territorio de Bogotá y la región cundiboyacense en la segunda mitad del siglo XX, como una posibilidad de continuar con las indagaciones hechas en la tesis de grado (2001) de la Maestría en Urbanismo de la Universidad Nacional de Colombia, de la cual se publicaron los contenidos principales en el libro Las industrias en el proceso de expansión de Bogotá hacia el occidente (2006).
