Countries are among the most powerful brands on the global marketplace. Love it or loath it, never has there been a bigger or stronger brand than the United States of America. More than any other country, America has been blessed with a huge range of positive brand attributes. The country is associated with the definitive youth lifestyle (Coke, MTV, Levi's); with sporting prowess (Nike, NBA, Timberland); and with technological supremacy (Microsoft, Dell, IBM). America is well-informed (CNN, Time, Newsweek) and, naturally, wealthy (American Express, Merrill Lynch, Goldman Sachs). Of the top 100 international brands, 64 of them are American-owned. The core of America's potency lies in it being the country of origin for the world's three most valuable and profitable business sectors: entertainment, merchant banking and IT. This makes America the world's most powerful public domain brand. American brands simply hitch themselves onto this powerful national brand, and a cultural and commercial trail is instantly blazed for them around the world. This book traces American history, the values of Brand America and the growth of anti-Americanism up to the Obama presidency. America is truly the greatest branding story of them all, and this book tells it for the first time.
