Weld Quality: The Role of Computers: Proceedings of the International Conference on Improved Weldment Control with Special Reference to Computer Technology ... of the International Institute of Welding Yong Zhou

Weld Quality: The Role of Computers documents the proceedings of the International Conference on Improved Weldment Control with Special Reference to Computer Technology, held in Vienna, Austria, 4-5 July 1988, under the auspices of the International Institute of Welding. The topics of the four sessions are: (I) Design, Calculation and Prediction Models For Metallurgical Processes/Conception; (II) Inspection and In-Service Monitoring; (III) Fabrication, Quality Assurance; and (IV) Expert Systems, Data Banks and Future Possibilities.

Session I includes papers on the use of computer technology to establish the quality of the welded joints; computer-aided design system for design of fillet welds with optimum shape; and the use of numerical simulation software for predetermination and optimization of the mechanical resistance of brazed joints. The papers in Session II cover topics such as acoustic emission testing; eddy current inspection system for weld testing; and holographic imaging of weld cracks. Session III includes papers on a computer controlled friction welding system and a CAQ-system for welding workshops. The presentations in Session IV include an approach for writing conventional software and expert systems for welding engineers and an expert system for robotic welding.

From reader reviews:

Wayne Hause:

As people who live in the modest era should be update about what going on or data even knowledge to make these individuals keep up with the era and that is always change and progress. Some of you maybe will update themselves by reading through books. It is a good choice for you but the problems coming to a person is you don't know which you should start with. This Weld Quality: The Role of Computers: Proceedings of the International Conference on Improved Weldment Control with Special Reference to Computer Technology ... of the International Institute of Welding is our recommendation to help you keep up with the world. Why, because this book serves what you want and wish in this era.

Tammy Medina:

Would you one of the book lovers? If yes, do you ever feeling doubt while you are in the book store? Try to pick one book that you just dont know the inside because don't assess book by its deal with may doesn't work the following is difficult job because you are frightened that the inside maybe not as fantastic as in the outside seem likes. Maybe you answer is usually Weld Quality: The Role of Computers: Proceedings of the International Conference on Improved Weldment Control with Special Reference to Computer Technology ... of the International Institute of Welding why because the excellent cover that make you consider concerning the content will not disappoint an individual. The inside or content is actually fantastic as the outside or even cover. Your reading 6th sense will directly guide you to pick up this book.

Alberta Jones:

As a student exactly feel bored to be able to reading. If their teacher requested them to go to the library or to make summary for some publication, they are complained. Just minor students that has reading's soul or real their passion. They just do what the instructor want, like asked to go to the library. They go to at this time there but nothing reading critically. Any students feel that reading is not important, boring in addition to can't see colorful pictures on there. Yeah, it is to become complicated. Book is very important in your case. As we know that on this era, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore , this Weld Quality: The Role of Computers: Proceedings of the International Conference on Improved Weldment Control with Special Reference to Computer Technology ... of the International Institute of Welding can make you truly feel more interested to read.

Margaret Jackson:

What is your hobby? Have you heard that question when you got college students? We believe that that concern was given by teacher with their students. Many kinds of hobby, All people has different hobby. So you know that little person including reading or as reading become their hobby. You need to understand that reading is very important and book as to be the point. Book is important thing to incorporate you knowledge,

except your own personal teacher or lecturer. You find good news or update about something by book. A substantial number of sorts of books that can you choose to adopt be your object. One of them is Weld Quality: The Role of Computers: Proceedings of the International Conference on Improved Weldment Control with Special Reference to Computer Technology ... of the International Institute of Welding.
