## Global Claims in Construction Ali Haidar

In recent years, a number of global claims have failed because they were presented without any systematic analysis, justification or proper calculation of losses. Hence, *Global Claims in Construction* highlights these issues as well as the importance of understanding causation, factual necessity and the courts' attitude and approach to global claims.

*Global Claims in Construction* addresses the principles of global claims and their calculation methodologies in detail through extensive references to literature, case law and a real world case study. It aims to be a valuable resource for professionals working in the construction industry, as well as students in construction and engineering.
