Self-experimentation, the deliberate design and implementation of an experiment using the experimenter's own body, is more common than is generally known. In fact, as this captivating reference book shows, hundreds of individuals over the centuries have used themselves as guinea pigs to test a theory or to understand a disease. The author provides a detailed history of the practice through numerous dictionary-style entries on self-experimenters and their experiments.

Each entry begins with biographical information about the experimenter and includes a brief narrative about the experiment, including its category, date and location, purpose, procedure, result, and significance. Medical history readers and researchers will find this book helpful both for its arrangement of data and for its indexing. The bibliographic references are a useful aid for those interested in further study. Offering easy access to a wide variety of biographical, scientific, and bibliographical information, *Self-Experimentation: Sources for Study* is a valuable reference work for those interested in historical and scientific research.

### **From reader reviews:**

#### **Ellis Dunn:**

Here thing why that Self-Experimenters: Sources for Study (Bibliographies and Indexes in Medical Studies) are different and reliable to be yours. First of all examining a book is good nevertheless it depends in the content of it which is the content is as delightful as food or not. Self-Experimenters: Sources for Study (Bibliographies and Indexes in Medical Studies) giving you information deeper as different ways, you can find any e-book out there but there is no e-book that similar with Self-Experimenters: Sources for Study (Bibliographies and Indexes in Medical Studies). It gives you thrill examining journey, its open up your own personal eyes about the thing which happened in the world which is probably can be happened around you. It is easy to bring everywhere like in park, café, or even in your means home by train. For anyone who is having difficulties in bringing the branded book maybe the form of Self-Experimenters: Sources for Study (Bibliographies and Indexes in Medical Studies) in e-book can be your option.

#### **Barbara Guevara:**

Nowadays reading books be a little more than want or need but also work as a life style. This reading practice give you lot of advantages. The huge benefits you got of course the knowledge the particular information inside the book this improve your knowledge and information. The data you get based on what kind of book you read, if you want drive more knowledge just go with knowledge books but if you want sense happy read one along with theme for entertaining like comic or novel. Typically the Self-Experimenters: Sources for Study (Bibliographies and Indexes in Medical Studies) is kind of reserve which is giving the reader erratic experience.

#### **Wanda Hardin:**

Information is provisions for folks to get better life, information nowadays can get by anyone at everywhere. The information can be a information or any news even an issue. What people must be consider while those information which is within the former life are challenging be find than now's taking seriously which one would work to believe or which one typically the resource are convinced. If you obtain the unstable resource then you understand it as your main information it will have huge disadvantage for you. All of those possibilities will not happen throughout you if you take Self-Experimenters: Sources for Study (Bibliographies and Indexes in Medical Studies) as the daily resource information.

#### **Julio Huntsman:**

This Self-Experimenters: Sources for Study (Bibliographies and Indexes in Medical Studies) is great publication for you because the content that is certainly full of information for you who all always deal with world and get to make decision every minute. This kind of book reveal it data accurately using great organize word or we can declare no rambling sentences within it. So if you are read the idea hurriedly you can have whole data in it. Doesn't mean it only will give you straight forward sentences but hard core information with

attractive delivering sentences. Having Self-Experimenters: Sources for Study (Bibliographies and Indexes in Medical Studies) in your hand like obtaining the world in your arm, details in it is not ridiculous just one. We can say that no e-book that offer you world inside ten or fifteen minute right but this reserve already do that. So , this can be good reading book. Hey Mr. and Mrs. stressful do you still doubt that?
