A First Course in Fuzzy and Neural Control

Hung T. Nguyen, Nadipuram R. Prasad, Carol L. Walker, Elbert A. Walker

A First Course in Fuzzy and Neural Control Hung T. Nguyen, Nadipuram R. Prasad, Carol L. Walker, Elbert A. Walker

Although the use of fuzzy control methods has grown nearly to the level of classical control, the true understanding of fuzzy control lags seriously behind. Moreover, most engineers are well versed in either traditional control or in fuzzy control-rarely both. Each has applications for which it is better suited, but without a good understanding of both, engineers cannot make a sound determination of which technique to use for a given situation.

A First Course in Fuzzy and Neural Control is designed to build the foundation needed to make those decisions. It begins with an introduction to standard control theory, then makes a smooth transition to complex problems that require innovative fuzzy, neural, and fuzzy-neural techniques. For each method, the authors clearly answer the questions: What is this new control method? Why is it needed? How is it implemented? Real-world examples, exercises, and ideas for student projects reinforce the concepts presented.

Developed from lecture notes for a highly successful course titled The Fundamentals of Soft Computing, the text is written in the same reader-friendly style as the authors' popular A First Course in Fuzzy Logic text. A First Course in Fuzzy and Neural Control requires only a basic background in mathematics and engineering and does not overwhelm students with unnecessary material but serves to motivate them toward more advanced studies.

From reader reviews:

Lawrence Rector:

The publication untitled A First Course in Fuzzy and Neural Control is the guide that recommended to you you just read. You can see the quality of the guide content that will be shown to an individual. The language that author use to explained their ideas are easily to understand. The copy writer was did a lot of research when write the book, hence the information that they share for your requirements is absolutely accurate. You also might get the e-book of A First Course in Fuzzy and Neural Control from the publisher to make you considerably more enjoy free time.

Nancy Fisher:

Do you have something that you prefer such as book? The e-book lovers usually prefer to choose book like comic, short story and the biggest an example may be novel. Now, why not trying A First Course in Fuzzy and Neural Control that give your satisfaction preference will be satisfied through reading this book. Reading behavior all over the world can be said as the method for people to know world much better then how they react in the direction of the world. It can't be claimed constantly that reading behavior only for the geeky man or woman but for all of you who wants to be success person. So , for every you who want to start reading as your good habit, you are able to pick A First Course in Fuzzy and Neural Control become your own personal starter.

Kyle Coffman:

Do you one of the book lovers? If so, do you ever feeling doubt if you find yourself in the book store? Try and pick one book that you just dont know the inside because don't ascertain book by its deal with may doesn't work this is difficult job because you are afraid that the inside maybe not because fantastic as in the outside appearance likes. Maybe you answer might be A First Course in Fuzzy and Neural Control why because the excellent cover that make you consider with regards to the content will not disappoint you actually. The inside or content will be fantastic as the outside or maybe cover. Your reading sixth sense will directly show you to pick up this book.

Joyce Jacobs:

This A First Course in Fuzzy and Neural Control is fresh way for you who has interest to look for some information mainly because it relief your hunger info. Getting deeper you onto it getting knowledge more you know or you who still having tiny amount of digest in reading this A First Course in Fuzzy and Neural Control can be the light food to suit your needs because the information inside this particular book is easy to get simply by anyone. These books create itself in the form which is reachable by anyone, sure I mean in the e-book web form. People who think that in e-book form make them feel tired even dizzy this book is the answer. So there is absolutely no in reading a reserve especially this one. You can find actually looking for. It should be here for anyone. So , don't miss that! Just read this e-book style for your better life along with

knowledge.
