Business Statistics Using EXCEL and SPSS Nick Lee, Mike Peters

Entertaining and educational, this is a genuinely accessible introductory statistics book for first year business students trying to grasp the essential concepts and techniques of quantitative analysis, using IBM SPSS and Microsoft Excel software. It does not assume any background knowledge of mathematics or statistics, and presents the fundamentals of data analysis in an engaging and readable way.

The authors show both how and why quantitative analysis is useful in the context of business and management studies and instill a fundamental sense of fun and enthusiasm for numbers by providing readers with an array of interesting and interactive examples and exercises.

Key features include :

- A fully up-to-date and comprehensive coverage of IBM SPSS and Microsoft Excel software, with tailored examples to illustrate how the programmes can be used
- A range of 'real world' and fictional examples to help bring the study of stats alive and ground it in application to typical business situations
- 'Think it Over' boxes to help translate the concepts learnt about into practical knowledge
- Different boxes for readers at varying levels of study and understanding, such as the 'Back to Basics', 'Above and Beyond' and 'Attention to Detail' boxes
- End of chapter questions to help translate theory into application
- A range of online resources including a set of data files and templates for the reader following in-text examples, downloadable worksheets and instructor materials, answers to in-text exercises and video content.

Oh come on, that will not happen if you have this with your hand. The Enjoyable agreement here cannot be questionable, similar to treasuring beautiful island. So do you still want to miss the item? Find this book and read it from currently!

Stephanie Dillard:

That e-book can make you to feel relax. This specific book Business Statistics Using EXCEL and SPSS was vibrant and of course has pictures around. As we know that book Business Statistics Using EXCEL and SPSS has many kinds or variety. Start from kids until adolescents. For example Naruto or Private investigator Conan you can read and think you are the character on there. Therefore , not at all of book are generally make you bored, any it makes you feel happy, fun and unwind. Try to choose the best book for you and try to like reading that.

Marylou Beauregard:

As a student exactly feel bored to help reading. If their teacher asked them to go to the library or even make summary for some reserve, they are complained. Just minor students that has reading's heart and soul or real their pastime. They just do what the teacher want, like asked to the library. They go to at this time there but nothing reading seriously. Any students feel that looking at is not important, boring and can't see colorful photos on there. Yeah, it is being complicated. Book is very important for you. As we know that on this era, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore this Business Statistics Using EXCEL and SPSS can make you feel more interested to read.
