## Protecting Personnel at Hazardous Waste Sites Deborah Chung, William Martin

The second edition of this book brings together a wide range of occupational safety and health recommendations and practices directly applying to hazardous waste site clean ups. In addition to providing the most current information on maximum protection for clean up personnel, this book is a practical authoritative guide for those involved in clean up operations. The completely updated second edition cites the newest OSHA and NIOSH recommendations which have developed over the past decade and explores the new federal emphasis in hazardous waste site clean ups as Radiation safety, Toxicology, Unexploded ordnance, OSHA training, EPA training and site health and safety plans.
