CD-ROM Courseware for Joyce's Residential Construction Academy Plumbing (Residential Construction Academy Series) Michael A Joyce, HBI

Based on national skill standards and developed as an integrated part of the Residential Construction Academy: Plumbing package, this series introduces the basics of residential plumbing through a step-by-step approach that shows viewers what to expect when they perform a procedure. Content surveys everything from flaring and soldering techniques and roughing-in to the installation of such plumbing facilities as toilets, faucets, and tubs. Tools and materials are introduced, and a consistent emphasis on safety draws attention to important considerations for working on the job. This series is available either in a set of four 20-minute videos or in the form of one CD-ROM course.
