Paradoxes of Power: U.S. Foreign Policy in a Changing World (International Studies Intensives) David Skidmore

This book provides a lively and readable introduction to current debates over U.S. power and purpose in world affairs. The end of the Cold War launched a new era in U.S. foreign policy. The United States entered a period of unprecedented global power, but one also characterized by new conflicts, challenges, and controversies. The terrorist attacks of 9/11 and the subsequent U.S. military operations in Afghanistan and Iraq cast a spotlight on continuing debates over how the United States should best use its considerable international power to secure safety for Americans and stability in the world. These debates involve two crucial questions: Should U.S. foreign policy focus on securing vital interests that are narrowly defined, or should the United States seek to spread U.S. institutions and values to other societies? Should the United States exercise maximum independence in the exercise of U.S. power abroad or work principally through multilateral institutions? This book brings together many different voices to answer these questions and to add to our understanding of the issues. Contributors include: Andrew J. Bacevich, Max Boot, Stephen G. Brooks, Ralph G. Carter, Robert F. Ellsworth, Niall Ferguson, Francis Fukuyama, Philip H. Gordon, Christopher Hitchens, James F. Hoge Jr., Michael Ignatieff, G. John Ikenberry, John B.
